

Envth markup pipeline

Trevor Cook

Objective

Demonstrate envth Markup Environment

- Use
- Images
- Templates

Use

- Expects markup in `$markupdir` and images in `$markupdir/img`
- `markupdir` defaults to `./doc`
- Render with the `envlib` function:

```
> markup-doc filebasename
```

Images

- Place .svg images in `$markupdir/img`
- Rendered to .pdf on each markup-doc call
- Uses inkscape
